Education

Pune Vidyarthi Griha's College of Engineering and Technology, Pune	2021 – 2025
• B.E. in Computer Science – GPA: 8.2	
Araham Jr College, Pune	2019 – 2021
• 12th HSC – Percentage: 79%	
Aranha's Rosary High School, Pune	2019
• 10th SSC – Percentage: 84%	

Experience

Full Stack Developer Intern, Sasefied – Remote, Pune	August 2024 – Present
• Key Responsibilities (First Month): Developed responsive web pages using React.js, ensuring cross-device compatibility and improving the user experience. Conducted research on Meta API workflows, explored integration methods, and optimized data flow. • Key Responsibilities (Tech Back-end Lead): Led the back-end development team, overseeing the creation of RESTful APIs, webhooks, and real-time chat systems. Integrated third-party communication tools like WhatsApp and Twilio into a chat system using technologies such as Node.js, Express, Mongoose, Web Sockets, and MVC architecture. Implemented JWT for session management and Bcrypt for secure password management.	

Projects

Journey Hive	https://github.com/Aditya-0712/JourneyHive
• JourneyHive is a comprehensive travel ticketing platform designed to make traveling, booking and managing trips seamless and efficient. Built with modern technologies, JourneyHive offers a user-friendly interface and powerful back-end capabilities to ensure a smooth user experience. • Built using React.js, Java Spring-boot and PostgreSQL, JWT, OAuth2, Spring Security, BCrypt Password Encoder, Docker, AWS.	
Reybot	https://www.reybot.co.uk
• Reybot is a business communication platform designed to streamline customer interactions through WhatsApp. It allows businesses, clinics, hospitals, and service providers to register and send messages to their customers, patients, or clients about appointments, schedules, reports, and other important notifications. • Built using React.js, Node.js, Express.js, Nodemailer, JWT, BCrypt, MongoDB Atlas, Render and Vercel.	
E-Commerce Website	https://github.com/Aditya-0712/E-Commerce
• A comprehensive e-commerce website, equipped with essential features like wishlist, shopping cart, comments, reviews, ratings, and user account creation with validation. • Built using Node.js, Express.js, MongoDB, Embedded JS, HTML, CSS.	

Certifications

Introduction to Machine Learning	NPTEL IITKGP (2024)
Git, Java	Spoken Tutorial IIT Bombay (2024)
React.js, Node.js, Web Development, Data Science, Java Full Stack	Udemy

Technical Skills

Programming Languages: Python, Java, C++ , JavaScript
Data Science: NumPy, Pandas, Seaborn , Matplotlib , Scikit-Learn
Web Development: React.js, Node.js, Express.js, Java Spring, Spring Boot, HTML, CSS, REST Api.
Tools: Git, Github, Docker
Additional Skills: DSA, OOPs, DBMS, MongoDB, SQL, PostgreSQL, Linux Operating System
